SUMMARY

- Dedicated and motivated web developer with 4+ years of **MEAN-stack** and **web development** experience.
- Experience in developing web applications using **AngularJS/Angular 6/4/2, React JS, Redux JS, NodeJS, ExpressJS, Mongo DB.**
- Multi-tasker who thrives in fast paced environment through continuous learning and teamwork.

EDUCATION

- **Master's in Computer Science:** New York Institute of Technology | Dec' 17
- **Bachelors in Engineering:** Venkateshwar Institute of Technology, India | May' 13

TECHNICAL-SKILLS

Web Development: Angular 6/ 4/2, AngularJS, React JS, Redux JS, jQuery, LESS, SASS, Angular fusion chart, Bootstrap

Technologies: Node.js, Express.js

Database Systems: Mongo DB 3.2.6, MySQL

Tools: Eclipse, Web Storm, Sublime, Visual Studio Code, GIT

WORK-EXPERIENCE

Front End Developer at Verizon | Angular, React, Redux, HTML, CSS | Oct 2018 – Present

- Developing a single page application using Angular 6/4/2 and React JS for ACSS application to give a better user experience.
- Working with customized API and made them available to components using reducers and actions from Redux.
- Using React-Router to turn applications into SPA.
- Built reusable class components using React Redux based on the visual designs.
- Worked with Angular 6.0/4.0 and TypeScript to implement Single Page Application using Modules and Components.
- Used HTTP Client Module for consuming back-end APIs and used Observables and Promises to deal with asynchronous data.
- Designed dynamic and multi-browser compatible Web pages using HTML5 and CSS3.

MEAN Stack Developer at Marlabs Inc. | Angular, NodeJs, HTML, CSS | Mar 2018 - Sep 2018

- Developed the application as Single Page Application using Angular 2.0 MVC framework.
- Extensively used Angular HTTP service to perform AJAX calls for creating interactive web pages on JSON response.
- Involved in Creating REST ful Services using NodeJS and Express framework.
- Used Angular2 HTTP Module to make API calls and worked with the observables.
- Worked with NoSQL database Mongo DB.
- Designed dynamic Web pages using HTML5, CSS3 and Bootstrap.

Web Developer at Com Expo Cyber Security | Angular JS, HTML, CSS, Bootstrap | Jan-2014 - Dec-2015

- Developed user interface using AngularJS, HTML 5, CSS 3, JavaScript and AJAX.
- Implemented AngularJS concepts like Dependency injection, two way data binding, filters services and directives.
- Highly used AngularJs routing and \$location service for navigation through the different controllers and templates.
- Used \$emit, \$broadcast and \$on for controllers to be notified for various events.
- Designed and implemented UI layout using HTML5, CSS3 and Bootstrap.
